

Why Switch to EnviroMax® Filters?

- Tired of **excess dust**?
- Can't find your **filter size**?
- Can't remember when you last **changed out your filters**?
- Tired of lugging out **a ladder** each month to **change a filter**?
- Don't like to run out to **buy filters every month**?

CONVENIENCE

Only change your EnviroMax® Filters once a year – Guaranteed!

AFFORDABLE

You can own an EnviroMax® Filter for as low as \$5 a month.

REMINDERS

EnviroMax® sends you a reminder when your filter needs to be replaced.

EFFICIENCY

EnviroMax® gives you cleaner, healthier air & prolongs the life of your A/C system.

FAQ's

Can I expect to see less dust in my house?

Yes! Most people buy a standard 1" pleated filter because they realize they are better than basic fiberglass filters. What they don't realize is that these filters only stop 5-20% of the dust while the EnviroMax® filter stops 98%.

How do I clean my EnviroMax® Filter?

No cleaning needed. In fact, our motto is "fit it and forget it" because we guarantee the EnviroMax® filter to last one year in residential systems.

Will it cause a strain on my A/C system?

No! Designed and developed by a licenced A/C company, the uniquely pleated 4" EnviroMax® has much greater surface area than a standard 1" filter, thereby providing better airflow and more dust holding capacity.

My filter has been in for 6-8 months and the filter looks dirty. Should I change it?

No, under normal residential use your EnviroMax® filter is guaranteed to last 1 full year. Your filter is dirty because it is doing its job by minimizing the dust on your A/C coils and in your lungs.

My present 1" filter says it will last up to 90 days. Is that possible?

The key words are "up to" 90 days. In a mild climate or situation where your A/C rarely runs, the 1" filter "might" last 60-90 days but it will likely put more strain on your A/C. A/C contractors recommend changing any 1" filter every 30 days.

We are a family owned Christian business serving the Houston area since 1979, developing clean air services for both commercial and residential systems .

Protect the Life of Your A/C Equipment
Environmentally Friendly

Change 12 Times a Year
Cost \$7-\$12 a Month on Average
Dirty Air = Increased Energy Bills
More Costly Repairs and Services
Fill Landfill 12 Times a Year

"I've owned rent houses since 1974. I've always had issues with tenants not changing the A/C filter. Not any more! I've made the switch to Enviromax Filters in all of my rent homes as well as my own home. I now have the Peace of Mind that my investments are being protected year round."

Jerry W.
Homeowner & Landlord

"Finally someone has come up with a realistic filter system. We've been selling the Enviromax Filter System to our customers since 2005. It's much easier and less costly than the attic filter system. I highly recommend using the Enviromax Filter System."

Patrick Sr.
Tempicure A/C

Remarkable product and company. We are averaging over twelve months without changing filters. With the economy such that it is, reducing cost of operation is a huge benefit.

We are spending less time and money annually on air filters and labor going from the once a month filter system to Enviromax filters. Also, we benefit by having a cleaner operating system resulting in additional savings...job well done!

I LOVE Enviromax filters...Not only does it save me time, because you only have to change the Enviromax once a year but, they are cheaper than buying a 1" filter every month. The dust in my house has been drastically reduced! The customer service is great and the best part is I get a reminder every year when these need to be changed. These are made here in the U.S. which is another perk!!

Jennifer M.
Customer

"I recommend Enviromax Filters for allergy relief and the sheer convenience of not having a monthly "filter issue".
